## Gotcha Goat

by Carolyn j Morris

Illustrated by Richard McNaughton

Carolyn j Morris' new book, *Gotcha Goat*, is a beautiful story that invokes the feeling of childhood. The watercolour illustrations by Richard McNaughton are a wonderful collection full of whimsy and play. Both the pictures and the story highlight the escape we felt while playing in and around the farm as little ones. I love how this story captures the resourcefulness of children, and the determination they get, when faced with a problem. I am especially impressed by the gender fluidity of the characters which is important for the inclusiveness of all that will enjoy this story.

As always, the scientific facts in the back of the book are the perfect learning extension for inquiring minds, and are a valuable option as a teaching resource. This book is perfect for programmers and educators to bridge the gap between summer and the start of the school year!

Well done Railfence Bunch, can't wait for the next one!
