Lucy's Lamb

We were so excited when we saw the front cover of Mrs. Morris' new book Lucy's Lamb! The picture of Lucy daydreaming about her lamb reminded us of our first lambs and how we daydreamed about them!

We loved how true the story was. We have definitely run out to the barn in our pajamas and rubber boots to check for new lambs too. It made us laugh when we heard the name of Lucy's lamb and when her mom told

her to say it a second time to be sure she could remember it.

Mr. McNaughton's pictures are very cool and lambs are just as cute in real life!

We think it is great that there are a lot of definitions, facts, and instructions on how to process wool after the story. This is helpful for readers to know all about the words used to talk about sheep and what amazing animals they are.
