Delicious Dilemma

by Carolyn j Morris

Illustrated by Richard McNaughton

Author Carolyn j Morris has brought a fall adventure into the apple orchard with Delicious Dilemma!

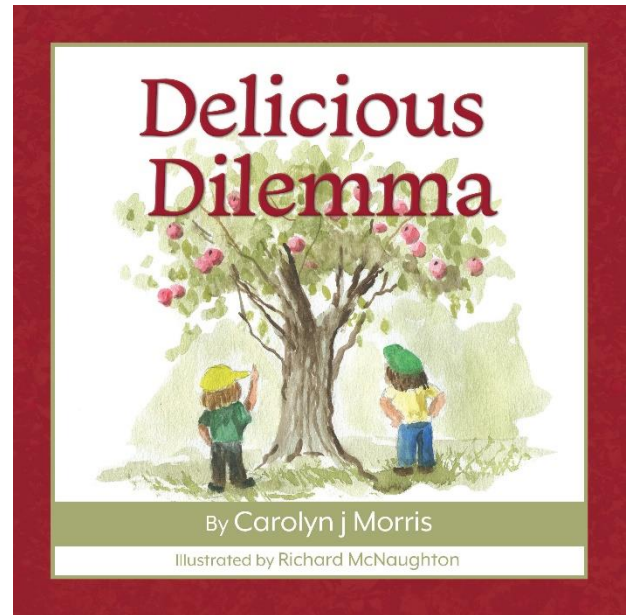

Charlie and Mackenzie try to solve a problem when the perfectly round and red apples are just too high to reach. What a dilemma!

With the help of two farm animals, Ruby and Daisy Mae, they construct a thingamajig and the solution unfolds.

Long-time Railfence Books illustrator and artist, Richard McNaughton, brings the characters to life on each page using charming watercolour images. He has also painted Chick and Duckling into a scene for the Railfence Bunch fans.

Once again, the author has included relevant facts for the readers who have come to expect extended learning opportunities. History, varieties, and uses of apples turn this fun read into a beneficial resource that seamlessly fits into learning in home and school settings. Gramma's applesauce recipe is a tasty addition to Delicious Dilemma and a nod to the author's new role as a Gramma.

Bite into another delightful Railfence Bunch Kids book, Delicious Dilemma!
